

CORPORATE ENVIRONMENTAL RISK MANAGEMENT, LLC (CERM)

OUR SERVICES

OUR MARKETS

TRANSPORTATION
Atlanta Street Car

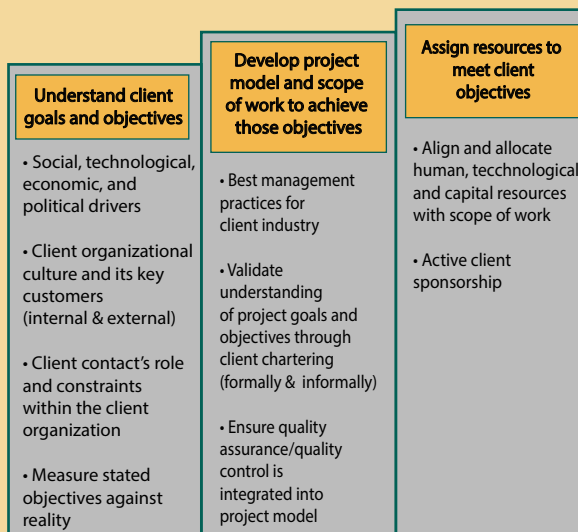

CERM is an environmental, engineering and program management firm. Established in 1995 and headquartered in Atlanta, Georgia, we have experienced steady, award-winning growth with large-scale projects for governmental agencies, transportation, energy, utilities, and corporate clients. Our staff of engineers, scientists, surveyors,

planners and technicians collaborate to provide comprehensive and lasting solutions to address unique problems in transportation, the environment, water resources, facilities and energy throughout the Southeast.

We support workforce and economic development. We're applying our experience in surveying/mapping to improve transportation in urban settings. And we're using our remediation experience to make schools safer for teachers and their students. Working with our clients, we are committed to delivering first-class service and we're dedicated to serving the community that surrounds us. We have a proven track record you can trust and we welcome the opportunity to deliver value while addressing your next project.

To produce our "client-centered solutions," we use our own comprehensive **Project Management Model**, designed to carefully assess project challenges - from the routine to the hazardous. We partner with stakeholders, test for the unknown, listen to key decision makers, and forge strategic partnerships. When you work with CERM, great outcomes are inevitable with our scalable engineering, skilled people and project management process.

CERM PROJECT MANAGEMENT MODEL

OUR PRINCIPLES

- ◆ Develop a clear and concise understanding of the client's goals and objectives.
- ◆ Apply our considerable expertise and resources to develop a sustainable project model.
- ◆ Allocate and align the human, technological, and capital resources required.

Since 1995, CERM has been vested in helping our clients design, manage, engineer and construct their projects. We provide Program Management, Environmental, Engineering, Construction Management, Survey & Mapping, and Remediation & Contracting services. Depending on what our clients need, we offer these services independently and/or packaged together. Our project delivery process is built on communication, innovation and operational excellence. This affords us the chance to truly partner with our clients to achieve the best outcomes. **Our services encompass six essential areas:**
